S.T.A.R.

Requests to third parties

Which servers your browser contacts when you use this website: only this website.

Document ID	STAR-LEGAL-REQUESTS-EN
Version	2.0
Date	2026-10-21
Jurisdiction	Italy and the European Union
Language	English (an Italian version is published; for users in Italy the Italian text prevails)
Owner	Andrea Cavazzini
Legal review	not yet performed by a lawyer — requested before any paid service
Next review	2027-04-15 or at any change of service
Published at	https://andrea07072000.github.io/S.T.A.R.-/legal/third-party-requests/

S.T.A.R. is an independent project of Andrea Cavazzini, Italy: it is not a company. The software is released under the Apache License 2.0 and is at prototype maturity (TRL ≤ 6), not flight-qualified and not certified.

Contents

Article 1 — Everything comes from this website 3

Article 2 — Fonts in particular 3

Article 3 — When a third party is contacted 3

Article 4 — How to check it yourself 3

Article 1 — Everything comes from this website

1.1 Pages, fonts, scripts, images, the Python runtime used by "Run in your browser" and the downloadable files are all served from this website's own address, which the hosting provider (GitHub Pages) delivers through its own servers and content delivery network. Your browser does not contact Google, font services, analytics services, advertising networks or any other third-party service while you read it.

Article 2 — Fonts in particular

2.1 The fonts (Space Grotesk, Inter, JetBrains Mono, under the SIL Open Font License) are copies stored on this website. They are not loaded from Google Fonts: loading fonts from a third-party server transmits the visitor's IP address to that server, and a German court held that doing so without consent breaches the GDPR (Landgericht München I, 20 January 2022, 3 O 17493/20). This website avoids the question by not doing it.

Article 3 — When a third party is contacted

3.1 • Only when you click a link that leads elsewhere (for example the source code on GitHub, or an authority's website).
• Only when you choose to write an email: your mail program contacts your mail provider and the owner's (Proton).

Article 4 — How to check it yourself

4.1 Open your browser's developer tools, tab "Network", and reload any page: every request goes to the same address as the page. The owner's automatic tests check the same thing before every publication.

Annex — Legal acts cited in this document

Each act cited in the text, with its official source. The title was read from the official source on the date shown (EUR-Lex through the Publications Office for the European Union, Normattiva for Italy). Listing an act says where it is published; it is not an assessment of compliance.

Act	Official title (as verified)	Official source	Verified
Regulation (EU) 2016/679 (GDPR)	Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (Text with EEA relevance)	https://eur-lex.europa.eu/eli/reg/2016/679/oj	2026-10-21

Annex — Version history

Date	Version	Change
2026-10-15	1.0	First publication: notice, terms, privacy, cookies, evidence disclaimer, security, licences, trademarks, accessibility, infrastructure, AI use, space and export, contributions.
2026-10-15	1.2	Added acceptable use, minimum age, payments and invoicing, consumers and complaints, requests to third parties, personal data breaches and the record of processing; the terms now state the age rules and link the payment rules. Added the permission matrix, the forms and, per package, the compliance sheet, SBOM and citation files.
2026-10-21	1.6	Editorial only: the in-browser section of the package pages is now called “Run in your browser” (it was “Try it here”), and the two documents that name it say so. No change of substance.
2026-10-21	2.0	PDF edition: every document is now a formal multi-page PDF with a cover, a table of contents, articles and numbered clauses, page numbers and an integrity block with the SHA-256 of the published text. The words of the documents are unchanged.

Integrity of this document

SHA-256 of the published text of this document (UTF-8, as served at the address below):
`005fad86561b1e2debafbdf0aadb67ac7801f1b44bddb3d448464ab57ae4d695`

Published at: https://andrea07072000.github.io/S.T.A.R.-/legal/third-party-requests/
The SHA-256 of this PDF file is listed in SHA256SUMS.txt and manifest.json of the legal pack, published with it.
The web page is the reference text; this PDF reproduces its words, divided into articles and clauses.
