| DATE | DOCUMENT | VERSION | CHANGE |
|---|---|---|---|
| 2026-10-15 | all | 1.0 | First publication: notice, terms, privacy, cookies, evidence disclaimer, security, licences, trademarks, accessibility, infrastructure, AI use, space and export, contributions. |
| 2026-10-15 | privacy, licensing | 1.1 | Added the in-browser Python (Pyodide, self-hosted, runs locally) and the downloads; no new personal data. |
| 2026-10-15 | acceptable-use, minors, billing, consumers, third-party-requests, data-breach, processing-record, terms | 1.2 | Added acceptable use, minimum age, payments and invoicing, consumers and complaints, requests to third parties, personal data breaches and the record of processing; the terms now state the age rules and link the payment rules. Added the permission matrix, the forms and, per package, the compliance sheet, SBOM and citation files. |
| 2026-10-16 | notice, privacy, billing, forms, licensing guidance | 1.3 | After an independent review: the legal notice no longer cites d.lgs. 70/2003 art. 7 for less than it requires; the privacy notice names GitHub's role for its server logs and where its transfer safeguards are described; the forms cannot send what is typed even without JavaScript; the clause approval in the offer-acceptance form is for businesses only; licence guidance no longer mentions a NOTICE file that does not exist. |

| DATE | DOCUMENT | VERSION | CHANGE |
|---|---|---|---|
| 2026-10-20 | terms | 1.4 | The terms now describe the free Workspace tools: they run on your device, send nothing to the owner, and check form and arithmetic without replacing official services (Agenzia delle Entrate, VIES, banks) or legal and tax advice. |
| 2026-10-20 | privacy, cookies | 1.5 | The Workspace questionnaire can remember your answers on your device, only if you tick the box; the privacy and cookie notices now say so, with the name of the stored item and how to delete it. |
| 2026-10-21 | licensing, third-party-requests | 1.6 | Editorial only: the in-browser section of the package pages is now called “Run in your browser” (it was “Try it here”), and the two documents that name it say so. No change of substance. |
