1. What data could be affected

Only the emails received at the contact address and, for customers, the contract and billing documents. The website itself stores no personal data.

2. What the owner does

1. Contains the breach: changes credentials, revokes access, isolates the affected copy.
2. Assesses the risk to the people concerned and records the facts, the effects and the measures taken (GDPR, art. 33(5)), whatever the outcome.
3. Notifies the Garante per la protezione dei dati personali within 72 hours of becoming aware of it, unless the breach is unlikely to result in a risk to people (GDPR, art. 33).
4. Informs the people concerned without undue delay when the risk is high, in plain language, with what happened and what they can do (GDPR, art. 34).

3. How to report a suspected breach

Write to Info.and.News.S.T.A.R@proton.me with the subject "Data breach", or use the vulnerability report form.
